

WDI INDICATORS TABLE

1. COLUMNS

- a) country_iso3 (VARCHAR)→ an unique three-letter identifier for each country.
- b) country_name (VARCHAR) → represents the name of each country and should also be unique.
- c) indicator_code (VARCHAR)→an unique identifier for each used indicator.
- d) indicator_name (VARCHAR) → specifies the name of the used indicator.
- e) year (INTEGER) → the year to which the data corresponds.
- f) value (DOUBLE) → the value associated with each country, indicator and year.

2. DATASET OVERVIEW

→ this table uses seventeen types of indicators, with different units of measurement: Exports of goods and services (% of GDP); Imports of goods and services (% of GDP); Agriculture, forestry, and fishing, value added (current US\$); Agriculture, forestry, and fishing, value added (% of GDP); Manufacturing, value added (current US\$); Manufacturing, value added (% of GDP); Industry (including construction), value added (current US\$); Industry (including construction), value added (% of GDP); Services, value added (current US\$); Services, value added (% of GDP); GDP growth (annual %); GNI per capita, Atlas method (current US\$); Employment in agriculture (% of total employment) (modeled ILO estimate); Employment in industry (% of total employment) (modeled ILO estimate); Employment in services (% of total employment) (modeled ILO estimate); Life expectancy at birth, total (years); Urban population (% of total population)

→ the table has 11371 rows distributed by 16 entities/countries (Belgium, Czechia, Germany, Spain, Estonia, France, Greece, Hungary, Ireland, Italy, Lithuania, Latvia, Poland, Portugal, Romania and European Union) and stores values from 1960 to 2025.

3. GEOGRAPHIC AND TEMPORAL COVERAGE

→ all countries and most indicators have data for all the year span. However, the following indicators have a shortened year range:

- GDP growth (1961–2025)
- GNI per capita (1962–2025)
- Employment in agriculture (1991–2025)
- Employment in industry (1991–2025)
- Employment in services (1991–2025)
- Life expectancy at birth (1960–2024)

4. DATA INTEGRITY

→ this table has no duplicate keys or values outside the expected year range.
